This document is to certify that Dhiraj Shrestha has been successfully trained and tested on the transportation of dangerous goods in accordance with the requirements of the IATA Dangerous Goods Regulations Section 1.5. This includes the use of the DGR List of Dangerous Goods, Classification, Packaging, Marking, Labeling, Shipping Documentation, and Security.

Employer Certification Date

Overview: Our course covers the fundamentals of shipping dangerous goods by air using the IATA regulations. Eduwhere's Shipping Dangerous Goods by Air training course for the IATA regulations has been designed to satisfy Category 1 training requirements with specific exercises related to the transportation of dangerous goods by air from a shipper's perspective. Our 10 step approach encompasses all of the activities which must be addressed when preparing dangerous goods for shipment by air. This course has been updated to include recent changes to the regulations, using the 67th Edition (2026) of the IATA Dangerous Goods Regulations.

This dangerous goods certification course is designed to help employers meet the requirements for training as specified in Section 1.5 of the IATA Dangerous Goods Regulations and 49 CFR 172 Subpart H, including testing of participants. *This course does not cover the more detailed requirements for the shipment of radioactive materials under the IATA regulations.*

Objectives:

Upon completion of this online course, participants should be able to:

· understand and use the IATA Dangerous Goods Regulations; · properly label and mark dangerous goods containers for shipment; · complete Shipper's Declaration for dangerous goods; · select proper packaging for dangerous goods; · understand general awareness and safety awareness; · develop appropriate emergency response information to accompany shipments.

Topics:

Introduction to Dangerous Goods · General Awareness · Step 1: Determine the Proper Shipping Name · Step 2: Determine if material is Forbidden in Aircraft under any circumstances · Step 3: Excepted Quantity Limitations · Step 4: Identify Appropriate Packing Instruction (Passenger or Cargo Aircraft) · Step 5: Apply the Appropriate Quantity Limitation · Step 6: Identify State & Operator Variations (Security) · Step 7: Select the Appropriate Packaging · Step 8: Ensure the Required Labels and Marks are Affixed · Step 9: Complete Shippers Declaration for Dangerous Goods · Step 10: Security Awareness & Safety ·

Who:

Dangerous Goods training applies to any individual who:

· Loads, unloads, or handles dangerous goods; · Marks, labels, or otherwise prepares containers or packagings for transportation of dangerous goods by air; · Prepares Shipper's Declaration for dangerous goods; · Is responsible for safety of transporting dangerous goods; or · needs IATA Category 1 training.
